this work provides an overview of the progress that has characterized the field of research and policy in art education it profiles and integrates history policy learning curriculum and instruction assessment and competing perspectives

we are living in the age of participation social media are exploding customer cooperation is sought in product development and customer content is even built into media but where is the art reflecting our times where are the artists making this kind of art who were their predecessors in this book the author traces the roots of participatory art from duchamp mondrian and moholy nagy via less well known artists like lygia clark and charlotte posenenske as well as via better known artists like joseph beuys and yvind fahlstrm to contemporary artists showing an interest in participation like olafur eliasson and antony gormley participation is the most important thing that has happened in art gormley said in 2009 what then is participatory art after around 40 years of practice the author tries to distill the essential principles in 10 suggestions for a manifesto most central is its focus on the unfolding creative moment itself and on the creativity of the spectator

throughout the nineteenth century academies functioned as the main venues for the teaching promotion and display of art contemporary scholars have for the most part denigrated academic art calling it formulaic unoriginal and repetitious the contributors to art and the academy in the nineteenth century challenge this entrenched notion and consider how academies worldwide have represented an important system of artistic preservation and transmission their essays eschew easy binaries that have reigned in academia for more than half a century and that simply oppose the avant garde to academicism

after he is involved in a prank that led to an elderly woman s injury twelve year old mitchell must make amends by participating in a police program in which he chats online with a nursing home resident
